Subject: Parent Testimony - Christian Jackson
Mailed-by: gmail.com

My son Christian Yi-Xian Jackson started attending Tadika Tunas Didik when he was two years plus because I wanted him to be in a more stimulating environment unlike the daycare he was attending. I am glad I did that as Christian began to improve socially and intellectually, gaining self-confidence as well as interest in learning. What is outstanding about Tadika Tunas Didik is their educational approach which is all-rounded including public speaking, creative learning and character building. On top of that, I find the teachers very passionate about their work and they consistently treat my son patiently and kindly. This is very important because apart from encouraging children to learn, it will instill a love for school and love for learning in the years to come. I would highly recommend this school.
